- Data Analysis & A/B Testing
- Go-to-Market Strategy
- Stakeholder Management
- Budgeting & Resource Allocation
- Cross-Functional Collaboration
- API & Platform Strategy
- SQL & Analytics Tools
- Public Speaking & Presentations

## PROFESSIONAL EXPERIENCE

### Senior Product Manager

FinTech Innovations Inc.

January 2019 - Present

San Francisco, CA

- Lead a team of 8 product managers, designers, and engineers to build and scale a B2B payments platform serving over 10,000 enterprise clients.
- Spearheaded the redesign of the core checkout flow, resulting in a 32% increase in conversion rate and a 20% reduction in cart abandonment within six months.
- Developed and executed a three-year product roadmap that aligned with company OKRs and generated \$18M in new annual recurring revenue.
- Managed an annual product budget of \$4.5M, consistently delivering projects on time and under budget by optimizing resource allocation.
- Implemented a customer feedback loop using NPS and in-app surveys, which improved product satisfaction scores from 7.2 to 8.9.
- Partnered with sales and marketing to launch three major product releases, each exceeding revenue targets by an average of 15%.
- Mentored junior product managers, two of whom were promoted to senior roles within 18 months.

### Product Manager

CloudScale Solutions

June 2015 - December 2018

Austin, TX

- Owned the product lifecycle for a cloud infrastructure monitoring tool used by 500+ mid-market companies.
- Led the migration from a legacy monolith to a microservices architecture, improving system uptime from 99.5% to 99.99%.
- Conducted 50+ customer interviews and usability tests to inform feature prioritization, leading to a 40% increase in feature adoption.
- Collaborated with engineering to implement CI/CD pipelines, reducing release cycles from monthly to weekly.
- Defined and tracked KPIs using Mixpanel and Tableau, providing weekly reports to the executive team.
- Negotiated contracts with third-party vendors, saving the company \$200K annually.

### Associate Product Manager

TechStart Labs

August 2013 - May 2015

Denver, CO

- Assisted senior product managers in defining requirements, writing user stories, and managing sprint backlogs.
- Conducted market research and competitive analysis for a new mobile app, contributing to a successful

launch that reached 100K downloads in the first quarter.

- Coordinated with design and engineering teams to resolve bugs and improve user experience.
- Created and maintained product documentation, including wireframes, flowcharts, and release notes.
- Analyzed user data to identify drop-off points, recommending changes that improved onboarding completion by 25%.

**Business Analyst**

**July 2011 - July 2013**

*Global Consulting Group*

*Chicago, IL*

- Worked with Fortune 500 clients to gather business requirements and translate them into technical specifications.
- Developed process flow diagrams and data models to support software implementation projects.
- Facilitated workshops with stakeholders to define project scope and success metrics.
- Created dashboards in Excel and Power BI to track project progress and ROI.
- Received the "Rising Star" award for outstanding client service and analytical rigor.

PROFESSIONAL EXPERIENCE (CONTINUED)

**Junior Analyst**  
*DataCore Analytics*

**June 2010 - June 2011**  
*Chicago, IL*

- Collected, cleaned, and analyzed large datasets to support business intelligence initiatives.
- Built automated reports using SQL and Excel, reducing manual reporting time by 15 hours per week.
- Presented findings to senior analysts and managers, influencing strategic decisions.
- Collaborated with IT to improve data quality and integrity across systems.

**Intern**  
*BrightWave Media*

**May 2009 - August 2009**  
*Remote*

- Assisted the marketing team with campaign tracking and performance analysis.
- Compiled weekly reports on social media engagement and website traffic.
- Conducted research on industry trends and competitor activities.
- Supported the creation of presentation decks for client meetings.

PROJECTS

**AI-Powered Chatbot for Customer Support**  
*FinTech Innovations Inc.*

**2022 - 2023**

- Led a cross-functional team to design and launch an AI chatbot that handled 60% of tier-1 support tickets.
- Reduced average resolution time from 12 hours to 45 minutes.
- Integrated NLP models with existing CRM, improving customer satisfaction by 18%.

**Mobile Payments App Redesign**  
*CloudScale Solutions*

**2017 - 2018**

- Managed the end-to-end redesign of a mobile payments app for iOS and Android.
- Increased daily active users by 45% and app store rating from 3.2 to 4.7 stars.
- Implemented biometric authentication, reducing login friction and support calls.

**Data Visualization Dashboard**  
*TechStart Labs*

**2014 - 2015**

- Conceptualized and built a real-time dashboard for monitoring key business metrics.
- Used D3.js and React to create interactive charts and filters.
- Adopted by three internal teams, saving an estimated 200 hours of manual reporting per quarter.

**Open Source Contribution: Product Management Toolkit**  
*GitHub*

**2020 - Present**

- Maintain a GitHub repository with templates for PRDs, roadmaps, and user story maps.
- Over 1,200 stars and 300 forks; used by product managers worldwide.
- Write blog posts and give talks on agile product development.
